*oppaga*Information Brief

December 2002 Report No. 02-63

School Safety and Security Best Practices Approved by the Commissioner of Education

at a glance

The 2001 Legislature passed Ch. 2001-125, *Laws of Florida*, Section 40, which is often referred to as the Safe Passage Act. This act requires all school districts to conduct a self-assessment of their school safety and security using best practices originally developed by OPPAGA. The act also requires that OPPAGA and the Partnership for School Safety and Security make annual recommendations for adding, deleting, or revising those practices.

- OPPAGA and the Partnership for School Safety and Security worked collaboratively through the summer and fall to revise the best practices.
- OPPAGA and the partnership collected feedback from Department of Education staff and all 67 school districts.
- The practices were approved by the Commissioner of Education on November 8, 2002 and are available on <u>OPPAGA's</u> website.

Background-

The Safe Passage Act, enacted in 2001, requires each school district to review its safety and security practices based on best practices adopted by the Commissioner of Education. Under the act

- each school district shall conduct an annual self-assessment using the adopted safety best practices;
- based on self-assessment findings, superintendents shall provide recommendations to their school boards by July 1, 2002, and annually thereafter;
- the recommendations shall identify strategies and activities to improve school safety; and
- within 30 days of their school boards' meetings, superintendents shall provide reports to the Commissioner of Education identifying the result of their selfassessments and their school board actions.

Revising the Safety and Security Best Practices -

The Safe Passage Act directed OPPAGA and the Partnership for School Safety and Security to make annual recommendations to the Commissioner of Education for the addition, deletion, and revision of the safety and security best practices. ¹

OPPAGA and the partnership worked collaboratively to update and improve the safety and security best practices. This process included collecting feedback from multiple stakeholders and drafting revisions to the initial best practices that were adopted by the Commissioner of Education in the fall of 2001. OPPAGA and the partnership met during the summer of 2002 to receive feedback and drafted revisions to the safety and security practices.

The revised practices were distributed to Department of Education staff for its input, and the updated practices were submitted by OPPAGA and the Department of Education to all 67 school districts in the state to solicit feedback and ideas for improvement. After consideration of these comments, the revised safety and security best practices were presented to the Commissioner of Education for approval. On November 8, 2002 the Commissioner approved the revised best practices.

Results of the Safety and Security Best Practices Revision ————

The 29 safety and security best practices encompass a wide range of school safety areas, which will help districts conduct comprehensive reviews of their safety and security programs and policies. The safety and security best practices are organized in to seven program areas which include

- efficiency and effectiveness;
- safety planning;
- discipline practices and code of student conduct;
- school climate and community outreach;
- safety programs and curricula;
- facilities and equipment; and
- transportation.

This year's revision process led to the consolidation of several safety and security best practices and the addition of four new practices. The new safety and security best practices cover data reporting and accuracy, learning climate and culture, Safe and Drug-Free School Plans, and suicide prevention. Appendix A provides a complete listing of the safety and security practices approved by the Commissioner of Education and their associated indicators.

Based on stakeholder feedback OPPAGA and the partnership also developed a standardized form to help districts report the results of their self-assessments. This form is available on OPPAGA's website and from the Office of Safe Schools.

OPPAGA Report No. <u>02-49</u> School Districts Identify a Variety of Ways to Improve Safety in School, describes the results and recommended actions reported by the 67 county school districts in their 2001 self-assessments.

¹ The partnership is an independent, non-partisan body that is administratively assigned to the Department of Education. The partnership is composed of 11 members who are appointed by the Governor and confirmed by the Senate.

Appendix A: School Safety and Security Best Practices

Eff	iciency and Effectiveness				
1.	The district has established and implemented accountability mechanisms to ensure the perfectiveness of the safety and security program.	erforma	ince, e	efficiency, a	nd

Yes	No	In Progress U y program :	N/A

¹ This means that in budgeting and shifting resources the district considers several factors including goals, objectives, critical safety needs, and past performance of safety initiatives.

² Performance measures should include appropriate comparisons with peer districts in areas such as safety and discipline incidents, etc.

³ This assessment would include examining whether the overall safety program and individual safety initiatives (such as DARE or Crime Watch) are achieving the outcomes they are expected to achieve.

⁴ The district uses the state approved reporting form if available. If the state form is not available, the district develops its own form based on some standardized criteria such as the Uniform Crime Reports.

Information Brief

b.	On at least an annual basis, the district uses applicable comparisons and/or benchmarks and reviews the program's organizational structure and staffing levels to minimize administrative layers and processes.				
C.	The program structure includes reasonable lines of authority and spans of control given the responsibilities of each organizational unit.				
d.	In conducting its staffing review, the district obtains broad stakeholder input.				
e.	The district reports organizational structure and administrative staffing review findings in writing and distributes these findings to school board members.

	licators of Meeting the Best Practice	Yes	No	Progress	N/A
a.	The district has written school improvement plan(s) that includes districtwide school safety goals and procedures.				
b.	The district has implemented a comprehensive school safety plan that establishes emergency and safety procedures for school and district employees and students to follow. At a minimum, the plan addresses				
	• the evaluation of the principal's performance regarding school safety, monitoring and evaluating the implementation of the plan at the school level, and coordinating with local law enforcement and the Department of Juvenile Justice; ⁵				
	• the roles and responsibilities of the school principal and other administrators, teachers, and other school personnel for restoring, if necessary, and maintaining a safe, secure, and orderly school environment;				
	• the roles and responsibilities of the transportation staff for restoring, if necessary, and maintaining a safe, secure, and orderly bus environment; the goals and objectives of the school resource officers, if any;				
	• the mechanisms for identifying and serving the needs of students most at risk for engaging in disruptive and disorderly behavior;				
	 arrangements to work with local emergency officials; 				
	 safety issues and policies at school sponsored events; ⁷ and 				
	 processes by which the district will instruct parents and the local community as to how to respond to an emergency situation.

a.	The district ensures that each educational facility conducts an assessment of the safety hazards faced at that facility. ¹²				
b.	A certified fire safety inspector conducts an annual fire safety review of all education and ancillary plants to ensure compliance with Florida law.				
c.	An annual casualty safety review of all education and ancillary plants is conducted to ensure compliance with Florida law and all deficiencies are corrected within a reasonable period. ¹³				
d.	An annual review is conducted to determine whether educational facilities comply with the Florida Building Code.				
е.	Middle and secondary students participate in scheduled administrations of standardized surveys of risk behaviors and situations such as the Communities That Care, the Florida Youth Tobacco Survey, and the Youth Risk Behavior Survey and the results are used in assessing prevention needs.				
Re	lated Statutes and Rules				
SS.	1006.07(6), 1013.12(1)(b), 1013.12(2)(b), 1013.12(2)(c), F.S.				
7.	The district has developed emergency response procedures.				
Ind	licators of Meeting the Best Practice	Yes	No	In Progress	N/A
a.	The district has developed a districtwide plan for potential attacks against school sites or students and incorporates the appropriate school responses in the emergency procedures checklist.				
b.	The district has procedures for contacting all schools simultaneously in the event of a district-wide emergency.				

⁹ Emergency response agencies may include the fire department, police department, hospitals, social service, and health agencies.

¹⁰ In accordance with s. 119.071 *F.S.*, the district should take steps to ensure the confidentiality of security related information. The district should identify those administrators and staff directly responsible for emergency response procedures, such as principals and school resource officers, and ensure that they have received copies of the safety plans. Districts may chose to disclose descriptive information regarding the safety and security plans to teachers, advisory councils, and the public. However, the district must still protect sensitive security information so as not to compromise the district's safety efforts.

 $^{^{\}rm 11}$ Conducting this self-assessment does not meet the requirements of this practice.

¹² The safety assessment should include a review of the unique safety considerations at a given school site. In reviewing potential hazards, the district should consider those listed in Best Practice 8 along with any others appropriate to that school.

¹³ Note that life-threatening deficiencies must be correctly immediately or the facility withdrawn from use.

c.	The district has an emergency crisis team available to each school that provides counseling and other support to aid in dealing with people's reactions, making the adjustment after the				
	emergency, and re-entering the school environment.				
d.	The district has developed a media response plan and distributed it to each educational facility and each support service administrator. At a minimum, the plan addresses				
	• communicating necessary information to the media and parents; ¹⁴				
	• identifying established separate staging areas (e.g., specified locations) for media and parents; and				
	 providing guidelines on how to respond to media questions and interviews. 				
Re	ated Statutes and Rules				
8.	The district has provided each school with an emergency checklist.				
				In	
Ind	icators of Meeting the Best Practice	Yes	No	Progress	N/A
a.	A checklist that explains step-by-step emergency procedures is readily available in every classroom. The emergency situations include, at a minimum, ¹⁵				
	 weapons-use and hostage situations; 				
	 hazardous materials or toxic chemical spills; 				
	• weather emergencies including hurricanes, tornadoes, and severe storms; and				
	• exposure as a result of a manmade emergency.				
b.	The emergency checklist includes emergency contact numbers and provisions for backup communication with faculty, support service administrators, and emergency agencies.				
c.	The emergency checklist includes evacuation procedures developed with school transportation personnel, the fire marshal, law enforcement agencies, and other local agencies as appropriate. ¹⁶				
Re	ated Statutes and Rules				
s. 1	006.07(4), F.S.				
9.	The district and each school regularly practice emergency responses based on potential sa	fety co	oncer	ns at each	site.
Ind	icators of Meeting the Best Practice	Yes	No	In Progress	N/A
a.	The district school board has developed and implemented procedures for emergency drills in accordance with state law.				
b.	The district uses its annual self-assessment to identify the potential hazards for each educational facility and has developed and implemented procedures for practicing responses to identified hazards. ¹⁷				
c.	The district has implemented procedures for verifying the required and planned emergency drills have been conducted.				
Rel	ated Statutes and Rules				
s. 1	006.7(4)(a), F.S.				

¹⁷ This will include fire drills, but should also include responses to any other hazards identified in Best Practice 6.

¹⁴ Necessary information should include where parents should go or whom they should contact to find out about their children and where to get further information.

¹⁵ Schools cannot have lists for every possible emergency. However, to be comprehensive, the plan should address other issues such as suicide threats/acts; bomb threats; out-of-control person/student; fighting; sexual assault; health emergency, serious injury, homicide of student; child abuse; trespassing; exposure to blood-borne pathogens; armed robbery; removal/attempted removal of a student; and utility emergency.

¹⁶ In the event of an evacuation, schools should have separate areas for student assembly, parent request/release, and media operations.

10. The district provides emergency response agencies with floor plans and blueprints as ap	propriat	e.		
Indicators of Meeting the Best Practice	Yes	No	In Progress	N/A
The district provides floor plans of each educational facility to local law enforcement agencies and fire departments.				
b. The district has blueprints of each educational facility readily available for review during an emergency.

ss. 1012.98 (4)(b)4, 1012.98(4)(b)5, F.S.				
Discipline Policies and Code of Student Conduct				
12. The district and each school have a code of student conduct based on stakeholder input	and revi	sed on	an annual	basis.
Indicators of Meeting the Best Practice	Yes	No	In Progress	N/A
 a. The school district is in compliance with relevant laws and regulations regarding discipline policies including the code of student conduct. ²² 				
b. The district school board and school administrators annually review discipline policies and revise those policies with input from teachers, staff, parents, and students.				
c. The student code of conduct is clearly written and avoids the use of technical terminology.				

¹⁸ Training should include both instructional and non-instructional staff as well as substitute teachers and bus drivers. Districts may want to establish the minimum number working days a substitute must have before being provided with training.

¹⁹ Specialized training may include suicide prevention and responses for specific emergency situations as outlined in the emergency checklist in best practice 8.

²⁰ Depending on their duties, staff training can include emergency planning and intervention, class management, conflict resolution, CPR and first aid, the use of life-saving equipment, sexual harassment and abuse, and the early warning signs of violence to the personnel identified in 11a.

²¹ This includes equipment such as first aid kits, fire extinguishers, or portable defibrillators.

²² Laws and regulations such as respect for authority, respect for school property, respect for others, daily attendance, use of obscenities, harming or demeaning others.

d.	Parents are an integral part of the student discipline procedures and actions. They are made aware of expectations of students and are informed of changes in a timely manner.				
e.	Each year the discipline policies are clearly and thoroughly communicated to students, parents, and other stakeholders. ²³

³⁵ This includes programs such as "Blueprints" from the Center for the Study and Prevention of Violence, the Safe and Drug Free Schools Resource Center. NOTE: There are many sites for these kinds of programs, so the district may use something else.

³⁶ Such sources would include the Partnership for School Safety and Security's electronic clearinghouse and the Department of Education's Program Inventory.

³⁷ These programs should be designed to ensure the safety of students, teachers, and administrators.

³⁸ These include programs such as closed-campus lunches in high schools, structured playground activities, behavioral monitoring, behavioral counseling, student empowerment programs, extended day programs and school reorganizations, tutoring, mentors, and Saturday classes.

³⁹ Schools do not have to have a dress code, but they should be able to describe their reasoning if they have not adopted one. Dress code examples include prohibiting baggy pants, untucked shirts, overcoats and long jackets, and gang colors or symbols.

⁴⁰ The Department of Juvenile Justice and the Department of Education are examples of such agencies.

Facilities and Equipment

21. The district designs educational facilities and sites to enhance security and reduce vandalism through the use of "safe school design" principles.

				In	
Indi	icators of Meeting the Best Practice	Yes	No	Progress	N/A
a.	The district incorporates Crime Prevention Through Environmental Design (CPTED) principles in the maintenance, renovation, and construction of district educational facilities. CPTED principles include				
	 natural access and control of schools and campuses; 				
	 natural surveillance of schools and campuses both from within the facility and from adjacent streets by removing obstructions or trimming shrubbery; 				
	 school and campus territorial integrity; securing courtyards, site lighting, building lighting; 				
	 audio and motion detection systems covering ground floor doors, stairwells, offices and areas where expensive equipment is stored; 				
	 exterior stairs, balconies, ramps, and upper level corridors around the perimeter of buildings should have open-type handrails or other architectural features to allow surveillance; 				
	 open areas, such as plazas, the building's main entrance, parking lots, and bicycle compounds should be designed so they are visible by workers at work stations inside the buildings; and 				
	 designs which will promote the prevention of school crime and violence. Exterior architectural features without footholds or handholds on exterior walls, tamper-proof doors and locks, non-breakable glass or shelter window protection system; also landscaping and tree placement should be designed so they do not provide access to roofs by unauthorized persons. Sections of schools commonly used after hours should be separated by doors or other devices from adjacent areas to prevent unauthorized access. Install locks on roof hatches and apply slippery finishes to exterior pipes. 				
b.	The district can demonstrate that Crime Prevention Through Environmental Design and other appropriate safety features are incorporated into the design of all new construction. 41, 42				
c.	The district can demonstrate that whenever facilities are renovated, safety needs are assessed and safety designs are revised or added to the facility. 43				
d.	The district can demonstrate that facility maintenance incorporates principles of Crime Prevention Through Environmental Design. 44

⁵⁶ Procedures should include such requirements as timely reporting and identification of potential hazards by bus operators, reliable intake of reports of potential hazards by parents and other community members, physical reviews of each route and stop location by transportation personnel at least annually, and correction of agreed hazards.

⁵⁷ Student training should include at least the following: safe practices while waiting for, boarding, and disembarking from the bus; safe behavior while riding in the bus; school bus; evacuation procedures; safe behavior at railroad crossings; and, use of safety restraints (if applicable)

⁵⁸ District staff should include both bus drivers as well as other affected staff.

⁵⁹ Staff should maintain a secure file, include complete records of these inspections and all work done in connection with the inspections, confirming that all buses are inspected according to the established 20-day inspection schedule

The Florida Legislature

Office of Program Policy Analysis and Government Accountability

Visit the <u>Florida Monitor</u>, OPPAGA's online service. See <u>http://www.oppaga.state.fl.us</u>. This site monitors the performance and accountability of Florida government by making OPPAGA's four primary products available online.

- OPPAGA publications and contracted reviews, such as policy analyses and performance reviews, assess the efficiency and effectiveness of state policies and programs and recommend improvements for Florida government.
- Performance-based program budgeting (PB²) reports and information offer a variety of tools. Program evaluation and justification reviews assess state programs operating under performance-based program budgeting. Also offered are performance measures information and our assessments of measures.
- Florida Government Accountability Report (FGAR) is an Internet encyclopedia of Florida state government. FGAR offers concise information about state programs, policy issues, and performance. Check out the ratings of the accountability systems of 13 state programs.
- Best Financial Management Practices Reviews of Florida school districts. In accordance with the Sharpening the Pencil Act, OPPAGA and the Auditor General jointly conduct reviews to determine if a school district is using best financial management practices to help school districts meet the challenge of educating their students in a cost-efficient manner.

Subscribe to OPPAGA's electronic newsletter, <u>Florida Monitor Weekly</u>, a free source for brief e-mail announcements of research reports, conferences, and other resources of interest for Florida's policy research and program evaluation community.

OPPAGA provides objective, independent, professional analyses of state policies and services to assist the Florida Legislature in decision making, to ensure government accountability, and to recommend the best use of public resources. This project was conducted in accordance with applicable evaluation standards. Copies of this report in print or alternate accessible format may be obtained by telephone (850/488-0021 or 800/531-2477), by FAX (850/487-3804), in person, or by mail (OPPAGA Report Production, Claude Pepper Building, Room 312, 111 W. Madison St., Tallahassee, FL 32399-1475).
