Supplemental Report

Profiles of SUCCEED, Florida! Grant Recipients

Report No. 08-03 January 2008

*Office of Program Policy Analysis & Government Accountability
an office of the Florida Legislature*

OPPAGA supports the Florida Legislature by providing evaluative research and objective analyses to promote government accountability and the efficient and effective use of public resources. This project was conducted in accordance with applicable evaluation standards. Copies of this report in print or alternate accessible format may be obtained by telephone (850/488-0021), by FAX (850/487-3804), in person, or by mail (OPPAGA Report Production, Claude Pepper Building, Room 312, 111 W. Madison St., Tallahassee, FL 32399-1475). Cover photo by Mark Foley.

Supplemental Report: Profiles of SUCCEED, Florida! Grant Recipients

at a glance

This report is a companion to OPPAGA's [Report No. 08-02, SUCCEED, Florida! Grants Show Mixed Results Under Current Funding Structure](#). As directed by the Legislature, this report provides detailed outcome information on recipients of 2005-06 or 2006-07 SUCCEED, Florida! nursing or teaching grants.

Background

The 2005 Legislature created the SUCCEED, Florida! program to address Florida's critical workforce needs, including the areas of nursing and teaching. The program provides grants to institutions to expand their capacity to serve students in identified areas. Exhibit 1 shows the number of nursing and teaching programs that received SUCCEED, Florida! grants and the total grant funding they received over the program's first three years.

Exhibit 1

SUCCEED, FLORIDA! Has Awarded 156 Teaching and Nursing Grants

	Nursing		Teaching	
	Funding (Millions)	Number of Projects	Funding (Millions)	Number of Projects
2005-06	\$10.0	16	\$5.0	26
2006-07	3.6	17	8.6	33
2007-08	4.9	22	7.7	32

Source: OPPAGA analysis of Department of Education reports.

As part of its grant monitoring process, the Department of Education requires grantees to submit quarterly reports that contain expenditure information and outcome measures. During the program's first two grant years, these measures included student headcount, credit hours generated, number of full-time equivalent (FTE) students, and new student clock hours generated. In addition, the department instructed grantees to limit outcome data to only those students who benefited from the SUCCEED, Florida! grant. As a result, the department did not have baseline data to determine if grantees increased program capacity and degree production after receiving grant funds.

As part of its 2007 proviso language, the Legislature directed OPPAGA to determine to what extent the grants increased registered nurse and certified teacher production and nursing programs' capacity. The proviso also specified that OPPAGA evaluate the programs by reviewing enrollment capacity, number of applicants, and the number of qualified students denied admission as well as attrition rates, completion

rates, degrees or certificates awarded, pass rates on licensure examinations, and placements of completers in the nursing or teaching profession.

To obtain additional information on the impact of SUCCEED, Florida! grants, we requested grantees to specify the program degree tracks that they enhanced through grant funds (institutions offer multiple program tracks to train registered nurses and certified teachers). Since most bachelor's degree programs admit students to the program at the beginning of their junior year, we asked programs to base their student cohorts on new juniors in the cohort year. We collected the data based on academic years that began with the fall semester and concluded with the summer semester of the following year. We chose this timeframe to capture program information that mirrors the grant year and to coincide with the periods institutions used to implement their programs. The 'academic year' institutions use to report data to the state begins with the summer semester and ends with the spring semester of the following year.

To calculate program completion and attrition rates, we asked grantees to report the total number of students, both full-time and part-time students, who first enrolled in the program at the beginning of each term. Completion rates may be much smaller for programs with larger numbers of part-time students, since it will take those students longer to complete the program. In an effort to limit the amount of data we were requesting, we requested completion data for the cohorts that had a chance of graduating. We requested only completion information on the fall and spring cohorts for programs that typically take a student one year to complete after being admitted, and only the fall cohorts for programs that typically take a student two years to complete after being admitted. As a result, we did not ask programs to report completion data on their summer cohorts. At the time of reporting, many of the 2006-07 cohorts would not have had sufficient time to complete the program.

There are two main limitations to the data we collected. First, although we provided specific directions for completing the survey, institutions did not provide us with identical information for each outcome measure. For example, some grantees included students who were readmitted to the program in their first-time enrollment numbers; some of these students may have already accumulated credits, thus allowing them to graduate earlier than their cohort peers. Second, pass rates on the licensure exams only apply to students who participated in a program leading to an initial nursing degree. If an institution did not use their grant for an initial certification or degree program, then their activities related to SUCCEED would not affect their pass rates.

The profiles in this report contain detailed information about each recipient of a 2005-06 or 2006-07 SUCCEED, Florida! grant. We developed these profiles based on information provided by grant recipients, licensure pass rate data from the Florida Department of Health, and certification pass rates on the Florida Teacher Certification Examination from the Florida Department of Education and Title II (Sections 207 and 208) of the Higher Education Act reports. Each profile contains a short description of how the grantee used their grant and their reported program outcomes. A light grey heading highlights the program tracks where the grantees used their SUCCEED grant.

Nursing: Summary

Nursing programs that received SUCCEED, Florida! grants included those training licensed practical nurses, licensed registered nurses, other healthcare professionals, and new nursing students.^{1,2} These programs tended to use their grants to purchase patient simulators, make lab improvements, and support faculty salaries for various nursing tracks. Most of the community college nursing programs concentrated their effort on their associate degree (ASN) or licensed practical nurse to registered nurse (LPN to Registered Nurse) tracks. Approximately half of the university nursing programs focused on the baccalaureate or master's degree tracks. Exhibit 1 provides capacity outcomes for those institutions that used their grant on a particular track compared to those institutions that offered the track but did not apply their SUCCEED grant to it.

Exhibit 1

Most Grantees Used Their Grant to Support Their ASN and LPN-to-Registered Nurse Programs

Program Tracks	2004 (Fall, Spring, and Summer)				2006 (Fall, Spring, and Summer)			
	Number of Institutions	Number of Seats for New Students	Number of Qualified Applicants	Percentage Qualified Applicants Denied Admission	Number of Institutions	Number of Seats for New Students	Number of Qualified Applicants	Percentage Qualified Applicants Denied Admission
Associate Degree in Nursing

Grantees That Used Their SUCCEED Grant on the Track	14	2,282	5,232	61%	15	2,910	6,047	53%
Remaining Grantees	3	395	596	28%	3	415	583	24%
Licensed Practical Nurse to Registered Nurse Bridge								
All Grantees Offering Track	14	539	502	14%	16	653	703	19%
Grantees That Used Their SUCCEED Grant on the Track	13	527	492	14%	14	621	670	20%
Remaining Grantees	1	12	10	0%	2	32	33	3%
Bachelor of Science in Nursing								
All Grantees Offering Track	10	1,506	4,710	56%	10	1,658	5,375	61%
Grantees That Used Their SUCCEED Grant on the Track	5	759	2,594	59%	5	819	3,029	65%
Remaining Grantees	5	747	2,116	53%	5	839	2,346	55%

Note: The numbers provided above includes those institutions that received a SUCCEED, Florida! grant for either the 2005-06 or the 2006-07 grant year.
Source: OPPAGA survey of SUCCEED, Florida! grant recipients.

¹ A licensed practical nurse has the authority to perform selected acts under the direction of a registered nurse, a licensed physician, a licensed osteopathic physician, a licensed podiatric physician, or a licensed dentist.

² A registered nurse has the authority to perform acts requiring substantial specialized knowledge, judgment, and nursing skill based upon applied principles of psychological, biological, physical, and social sciences.

Exhibit 2 provides production outcomes for those institutions that used their grant on a particular track compared to those institutions that offered the track but did not support it with a SUCCEED grant.

Exhibit 2

The 2005 Grantees Generally Had Higher Completion Rates Than Their Non-Grantee Counterparts

Program Tracks	Fall 2004 Cohort				Fall 2005 Cohort			
	Number of Institutions	Number of Students Enrolled	Completion Rate	Attrition Rate	Number of Institutions	Number of Students Enrolled	Completion Rate	Attrition Rate
Associate Degree in Nursing								
All Grantees Offering Track	17	1,438	73%	15%	18	1,567	75%	16%
2005 Grantees That Used Their SUCCEED Grant on the Track	6	632	72%	16%	7	759	70%	18%
Remaining Grantees	11	806	73%	14%	11	808	80%	14%

Remaining Grantees	3	40	83%	13%	2	81	12%	6%
Bachelor of Science in Nursing								
Grantees Offering Track	10	929	73%	17%	10	951	78%	14%
2005 Grantees That Used Their SUCCEED Grant on the Track	3	249	84%	13%	3	283	85%	12%
Remaining Grantees	7	680	70%	18%	7	668	75%	14%
Master of Science in Nursing								
Grantees Offering Track	9	377	43%	15%	10	450	30%	12%
2005 Grantees That Used Their SUCCEED Grant on the Track	4	158	56%	26%	5	236	47%	14%
Remaining Grantees	5	219	34%	8%	5	214	12%	8%

Note: The 'All Grantee' numbers provided above include all students enrolled during the fall semester for each institution that reported completion data for the 2005-06 academic year. The '2005 Grantee' numbers provided above only includes those institutions that received a SUCCEED, Florida! grant for the 2005-06 grant year and applied their grant to the given program track. The 'Remaining Grantees' includes those institutions that received a 2005 grant but did not apply it to the given program track and those institutions that only received a 2006 grant.

Nursing: Community Colleges

Brevard Community College

As part of the SUCCEED grant, Brevard Community College targeted traditional and nontraditional students for its ASN and LPN to Registered Nurse Bridge programs. Grant expenses included distance learning equipment, human patient simulator technology and lab improvements. The grant also allowed the program to offer weekend and evening classes to its students.

Miami Dade College

Miami Dade College was a subgrantee for the 2005-06 and 2006-07 grant years, partnering with Florida International University. As part of the SUCCEED grant, Miami Dade College targeted Licensed LPNs, traditional and nontraditional students, and other healthcare professionals for its ASN, LPN to Registered Nurse, and Health Careers to Registered Nurse Bridge programs. Grant expenses included salaries, human patient simulator technology and distance learning equipment. The grant also allowed the program to offer academic support services and a licensure exam preparation course to its students.

Teaching: Summary

Teaching programs that received SUCCEED, Florida! grants mainly included professionals with a bachelor's degree in a non-education field. These programs tended to use the grant to recruit students, provide workshops and trainings, support staff salaries, and offer tuition assistance to new students within various education degree programs. All of the community college teaching programs concentrated on their Educator Preparation Institute (EPI) program, while the university education programs focused on their baccalaureate, master's degree, and other non-traditional programs. Exhibit 3 provides production outcomes for those institutions that used their grant on a particular track compared to those institutions that offered the track but did not support it with a SUCCEED grant.

Exhibit 3

Few Teaching Degree Programs Supported Their 2005 Traditional Programs With a SUCCEED Grant

¹ Educator Preparation Institutes (EPI) did not exist until the 2005-06 academic year.

Note: The 'All Grantee' numbers provided above include all students enrolled during the fall semester for each institution that reported completion data for the 2005-06 academic year.

The '2005 Grantee' numbers provided above only includes those institutions that received a SUCCEED, Florida! grant for the 2005-06 grant year and applied their grant to the given program track.

The 'Remaining Grantees' includes those institutions that received a 2005 grant but did not apply it to the given program track and those institutions that only received a 2006 grant.

Florida Atlantic University

As part of the SUCCEED grant, Florida Atlantic University's collaborative partnership with three community colleges and six school districts targeted undergraduate students at the freshman or sophomore university or community college level for its Bachelor's Degree in Education. Grant expenses included marketing, recruitment and salaries. The SUCCEED grant supported the Good FIT program, which provided mentoring, classroom experience and financial assistance for students. (Since the target group is undergraduate students, the effect of the program has not yet had time to carry over into Florida Atlantic's bachelor's program.)
