Supplemental Report: Nursing Education Programs 2011-12

May 2012

Report No. 12-07

Introduction

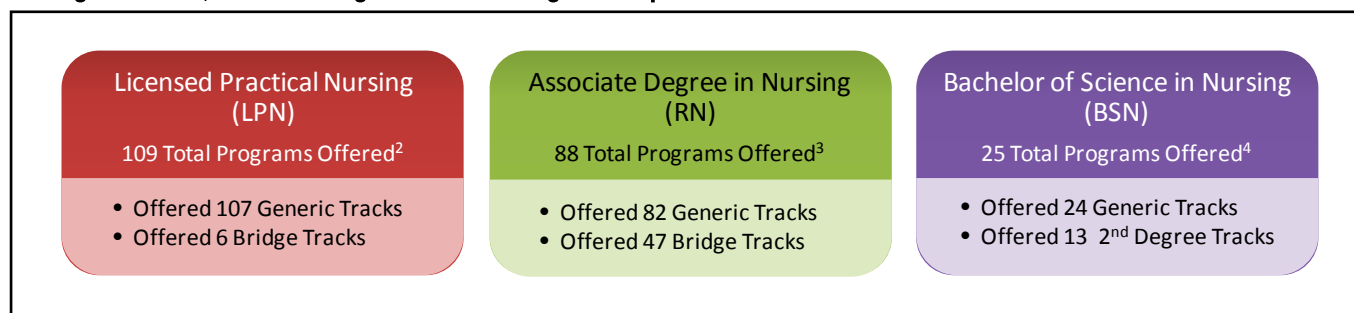

This report is a companion to OPPAGA [Report No. 12-04](#), *Florida's Nursing Education Programs Continued to Expand in 2011 with Significant Increases in Student Enrollment and Graduates*. This report provides program-specific data for all nursing education programs in Florida for the 2008-09, 2009-10, and 2010-11 academic years. This data includes each program's capacity (seats, students admitted, etc.), student enrollment, number of graduates, and program retention.

During the 2010-11 academic year, 222 nursing education programs in Florida had students enrolled. As shown in Exhibit 1, these included 109 programs that offered a licensed practical nursing certificate, 88 programs that offered an associate degree in nursing, and 25 programs that offered a bachelor's degree in nursing. Many of these programs offered both a generic curriculum (also called a track) for students with no medical experience and a bridge curriculum, which is an expedited program for students with nursing licenses or previous medical experience.

Public school districts, Florida colleges, state universities, private institutions licensed by the Commission for Independent Education, and private institutions that are members of the Independent Colleges and Universities of Florida offer nursing programs. In addition, state law authorizes Pensacola Christian College to offer a bachelor of science in nursing degree.

Exhibit 1

During 2010-11, 222 Nursing Education Programs Operated in Florida¹

¹ The total includes all curriculum tracks for programs, including 46 programs with multiple tracks.

² Four licensed practical nursing programs have both a generic and a bridge curriculum track and two have a bridge-only track.

³ Forty-one associate degree programs have both a generic and a bridge curriculum track and six have a bridge-only track.

⁴ Twelve bachelor's degree programs have both a generic curriculum track and a second degree curriculum track and one program only has a second degree track. In addition, Indiana State University is not included in these totals, but has a distance bachelor's degree program that admits Florida students who have a practical nursing certificate.

Source: OPPAGA survey and analysis.

Summary Statistics

Capacity and enrollment in nursing education programs has increased. Nursing programs have continued to increase their capacity for new students, and admitted more students (approved applications) in 2010-11 than in 2009-10 and 2008-09. For example, as shown in Exhibit 2, the number of new seats available for qualified students increased by nearly 3,500 in 2009-10, and by 4,300 in 2010-11, for an overall increase of 47% since the law was enacted. In addition, a higher number of new students with approved applications enrolled during the 2010-11 academic year than previous years. These capacity increases are the result of approving new programs and expanding existing programs. The revised law allows existing programs to increase capacity without board approval. During 2010-11, 78 of the 177 (44%) existing programs expanded the number of seats available to new students.

Exhibit 2

Capacity of Nursing Programs Has Expanded Under the New Law

Capacity Measure	2008-09 (Prior to the Law Taking Effect)	2009-10	2010-11	Percentage Increase/Decrease		
				2008-09 to 2009-10	2009-10 to 2010-11	2008-09 to 2010-11
New Seats	16,430	19,898	24,211	21%	22%	47%
Applications Received	46,997	70,464	66,136	50%	-6%	41%
Qualified Applicants	30,685	41,284	40,554	35%	-2%	32%
Students Admitted (Approved for Admission)	17,264	19,708	23,010	14%	17%	33%
Students Approved for Admission Who Enrolled	15,616	18,316	21,436	17%	17%	37%

Source: OPPAGA survey of nursing education programs.

Overall, student enrollment in nursing programs grew by 40% from 2008-09 to 2010-11. Enrollment increased by at least 11% in all types of curriculum during this period. As shown in Exhibit 3, the greatest increase was in associate degree in nursing (bridge curriculum) programs (106%), with 10 new programs and 21 existing programs that expanded their enrollment. Associate degree in nursing (generic curriculum) programs also experienced a large increase in enrollment due to the addition of 23 new programs and the expansion of 36 existing programs.

Exhibit 3

Student Enrollment Continues to Increase Across All Types of Nursing Programs

Curriculum Type	2008-09 Enrollment ¹	2009-10 Enrollment	2010-11 Enrollment	Percentage Increase/Decrease
				2008-09 to 2010-11
Practical Nursing (LPN) – Generic	6,454	7,730	8,981	39%
Associate Degree in Nursing – Generic	9,825	10,676	13,971	42%
Associate Degree in Nursing – Bridge	1,953	2,232	4,019	106%
Bachelor's Degree in Nursing – Generic	4,081	4,342	4,523	11%
Bachelor's Degree in Nursing – Second Degree	1,142	1,228	1,273	11%
Total	23,455	26,208	32,767	40%

¹ Prior to the law taking effect.

Source: OPPAGA survey of nursing education programs.

The percentage of students retained in nursing programs has gradually increased. Retention rates provide information on whether students persist in or complete their educational program a year later. We assessed retention in each type of nursing program using the cohort of students who entered the programs in 2008, 2009, and 2010. To calculate retention, we added the number of graduates and the number of students still enrolled and divided by the number of newly enrolled students for each cohort.

The resulting retention rates varied slightly among program types. For example, as shown in Exhibit 4, bachelor's degree programs typically had higher one-year retention rates (between 87% and 95%) than practical nursing programs (between 74% and 80%). These differences are due to varying admissions criteria and program lengths. Overall, the retention rates for students who entered in 2010 were higher than the rates for those who entered in 2008 and 2009.

Exhibit 4

The Number of Students Retained in Nursing Programs Increased in 2011

Curriculum Type	Students Entering in 2008 (Status as of 2009)		Students Entering in 2009 (Status as of 2010)		Students Entering in 2010 (Status as of 2011)	
	Total New Students Enrolled	Percentage Retained (Includes graduates and students enrolled)	Total New Students Enrolled	Percentage Retained (Includes graduates and students enrolled)	Total New Students Enrolled	Percentage Retained (Includes graduates and students enrolled)
Practical Nursing – Generic	2,342	74%	2,437	78%	3,051	80%
Associate's Degree in Nursing – Generic	3,125	81%	3,265	82%	4,605	85%
Associate's Degree in Nursing – Bridge	744	83%	839	81%	1,217	83%
Bachelor's Degree in Nursing – Generic	1,377	91%	1,519	91%	1,478	92%
Bachelor's Degree in Nursing – 2nd Degree	372	95%	448	91%	538	87%
Total	7,960	81%	8,520	81%	10,889	84%

¹ Includes graduates and students enrolled.

Source: OPPAGA survey of nursing education programs.

The number of students graduating from nursing programs increased 14% from academic year 2008-09 to 2010-11. Lengths of time for completing nursing programs generally range from one to four years, depending on curriculum. For example, a licensed practical nursing program is a one-year program, while the associate degree in nursing is a two-year program and the bachelor's degree in nursing is a four-year program. As a result, students who enrolled in new programs or programs that experienced increased capacity as a result of the new law began to graduate during the 2010-11 academic year. While it is too early to determine if the change in the law increased the number of students graduating from four-year programs, it appears that the number of students graduating from one- and two-year programs is increasing.¹

Although the overall number of students graduating from nursing education programs increased by 14% from 2008-09 to 2010-11, the number varied among the types of programs. For example, as shown in Exhibit 5, associate degree in nursing (bridge curriculum) programs experienced the greatest increase in students graduating (84%), while associate degree in nursing (generic curriculum) programs experienced only a slight increase (0.95%). However, there are 29 associate degree in nursing (generic curriculum) programs with students enrolled who have not yet graduated, so these rates may increase over time.

¹ Other factors may affect the graduation rate of students. Factors that OPPAGA could not control for include students' economic stability, cost of programs, and curriculum changes.

Exhibit 5**The Number of Students Graduating from Nursing Programs Increased from 2008-09 to 2010-11**

Institution	Graduates			Percentage Increase/Decrease 2008-09 to 2010-11
	2008-09 ¹	2009-10	2010-11	
Practical Nursing – Generic ²	3,910	3,805	4,581	17%
Associate Degree in Nursing – Generic ³	4,964	4,685	5,011	1%
Associate Degree in Nursing – Bridge ⁴	885	1,029	1,629	84%
Bachelor's Degree in Nursing – Generic ⁵	1,623	1,757	1,704	5%
Bachelor's Degree in Nursing – Second Degree ⁶	408	432	508	25%
Total	11,790	11,708	13,433	14%

¹ Prior to the law taking effect.

² Fifteen licensed practical nursing generic curriculum programs had students enrolled who have not yet graduated.

³ Twenty-nine associate degree generic curriculum programs had students enrolled who have not yet graduated.

⁴ Thirteen associate degree bridge programs had students enrolled who have not graduated.

⁵ Three bachelor's degree generic curriculum programs had students enrolled who have not graduated.

⁶ Two bachelor's second degree programs had students enrolled who have not graduated.

Bridge Programs

PROGRAM CAPACITY

Exhibit 12 shows Associate Degree in Nursing (ADN) bridge program capacity by institution for the 2008-09 and 2010-11 school years. The capacity of ADN Bridge programs has increased under the new law, with new seats, applications received, qualified applicants, students approved for admission, and admitted students who enrolled all increasing from 2008-09 to 2010-11.
